

## BriteShots™ Frequently Asked Questions (FAQ)

---

Q: What is BriteShots™?

A: BriteShots is a convenient, refreshing way to preserve your brilliant smile and help prevent stained teeth—just swish, swirl, and swallow our crisp peppermint rinse after coffee or tea. Grab BriteShots for your purse or pocket to rinse your teeth and freshen your breath anytime, anywhere!

Q: Does BriteShots work?

A: Yes! Dentists recommend rinsing your teeth immediately after coffee or tea to prevent stained teeth. And the ingredient Xylitol makes BriteShots even more effective.

Q: Who should use BriteShots?

A: Anyone who wishes to prolong the whiteness of their teeth and cares about their appearance. This includes everyone who drinks coffee, tea or any colored beverage that may stain teeth. Smokers will also enjoy BriteShots.

Q: Is BriteShots safe to swallow?

A: Yes, BriteShots is safe to swallow. Unlike mouthwash, BriteShots is meant to be consumed and is made from natural ingredients. BriteShots does not contain any harmful chemicals or harsh whiteners.

Q: Why would I choose BriteShots over breath mints?

A: BriteShots is not just a breath mint! It is an effective and immediate rinse for your teeth that washes away coffee and tea as recommended by Dentists. BriteShots is also easy-to-use—designed for on-the-go coffee and tea lovers, our 2 oz bottle easily travels with you. And BriteShots is safe to consume—it is alcohol and sugar-free and absolutely safe to drink.

Q: What is BriteShots made of?

A: BriteShots contains the following ingredients: Filtered Water, Xylitol, Natural Flavor, Sodium Benzoate (preserves freshness), and Phosphoric Acid.

Q: What is Xylitol?

A: Xylitol is a natural sweetener found in many fruits and vegetables. It is produced in small amounts by the human body (up to 11g per day.) Xylitol is safe to consume and is clinically proven to reduce plaque, fight cavities, and stop tooth decay. It is considered a natural replacement for fluoride and studies have shown it helps reduce cavities up to 80%.

Q: Who makes BriteShots?

A: BriteShots is produced by the Aurora Group, headquartered in Sequim, Washington. BriteShots is bottled by Orca Beverage in Mukilteo, Washington.

Q: Where can I buy BriteShots?

A: BriteShots will soon be available in coffee houses and retail locations everywhere. It is also available for sale online at [www.BriteShots.com](http://www.BriteShots.com).
